The delegating nurse directly observes staff during the medication administration process and requests that staff verbalize identified procedures to complete the competency assessment. The discussion portion of the assessment can occur separately or during the medication administration observation process.

Assessment Admin. Medications Nurse

Medications Nurse

Competency is defined as "the knowledge, skills, ability and behaviors that a person possesses in order to perform tasks correctly and skillfully" (O'Shea, 2002, p. 175).

Competency assessment involves more than a checklist and a test. Hospitals are required to assess, maintain, demonstrate, track, and improve the competence of the
