1. Problem identification . The first stage of any problem solving process is to identify the problem or problems you might want to solve. Effective problem solving strategies always begin by allowing a group scope to articulate what they believe the problem to be and then coming to some consensus over which problem they approach first.

How to improve your problem solving skills and strategies ...

I was in trouble when my doctor told me that I have been diagnosed with Colon Cancer Disease... I thought about my children, I know my children will face a serious problem when I'm gone, I lost hope and I wept all day, but one day I was surfing the internet, I found a testimony of someone that was cured of CANCER Disease by Dr Odudu.
