Ducati Monster Check Engine Light

The new *Monster* represents all the essence of Ducati in the lightest, most compact and essential form possible. You can already guess it from the name: *Monster*, nothing else. The recipe is the original 1993 one: a sporty engine, but perfect for road use, combined with a Superbike-derived frame.. All that you need to have fun, every day.

New Monster & Monster Plus - Just Fun | Ducati

The *Monster* is powered by the Testastretta 11° 937 cc twin cylinder L-shaped engine, with desmodromic distribution and Euro 5 homologation. Compared to the previous 821 it increases in displacement, power, torque and decreases in weight (-2.4 kg) to contribute to the lightness of the bike and offer better rideability.

New Monster & Monster Plus 2021 - Just Fun | Ducati

Thankfully Ducati's *Monster* design team has seen the light and started to move the wide one-piece tapered handlebar up and away from the front wheel spindle (20mm higher than other models).

DUCATI MONSTER 796 (2010-2013) Review, Specs & Prices | MCN

The Ducati 696 *Monster*'s clutch is feather light and comes as a slipper clutch as standard. The Brembo radial brakes up front are powerful but still progressive and ideal for novice riders.

DUCATI MONSTER 696 (2008-2012) Review, Specs & Prices | MCN

On the engine front, the 821 mill is replaced by Ducati's tried-and-true 937cc Testastretta 11°, as found in the Multistrada 950, SuperSport 950, and Hypermotard 950. In the latter, the engine ...
