Erp Documentation

What is the most essential piece of ERP documentation? In my opinion, number one is your internal ERP document describing how this powerful tool is going to help your organization. It will include your goals and how you plan to measure attainment. It also will include your hopes that might not be so easily measured.

4 pieces of essential ERP documentation you should understand

So, ERP documentation starts with a simple listing of the business goals and, in fact, never concludes. It is an ongoing process. Documentation reflects every new change introduced to a system. It develops as the project progresses and updates as the system upgrades.
