Guide Mastercam 5 Axes

Verify Location. Your geometry should be located within the positive X, Y, and Z quadrants, with the stock modeled such that it has a corner located at 0,0,0. The gnomon and axes visible on the screen should help to verify whether the geometry needs to move in order to satisfy this condition.

MasterCAM 2020 Step-by-Step Guide - Harvard GSD ...

RoboDK is software for Simulation and Offline Programming. Offline Programming means that robot programs can be created, simulated and generated offline for a specific robot arm and robot controller. RoboDK can help you with manufacturing operations involving industrial robots.

Basic Guide - RoboDK Documentation

Mastercam is known for precision NC programming, but it also delivers a suite of shop-tested design tools aimed at getting parts on and off the machine as quickly as possible. Powerful modelling tools include not only 3D surfacing and solids, but hole-filling, direct editing without a solids history, geometry repair, and more.

Mastercam's CAD for CAM design tools provide flexibility ...

This section of the documentation provides an overview of typical operations using a Fanuc robot to prepare a new program in RoboDK and transfer it to the robot. RoboDK supports all Fanuc robot controllers since RJ2, including RJ3, R-30iA and R-30iB. This documentation is based on the R-30iA Fanuc controller.
