Brain breaks are a powerful and effective way to address regulation needs, help with attention, and impact learning into the classroom. Learning can be exhaustive to our kids. They are struggling through the day's activities while sometimes striving to pay attention through sensory processing issues or executive functioning needs.

Brain Breaks - The OT Toolbox

thinking (Marzano, 2001). For example, preschoolers need to know color names (knowledge) in order to sort objects by color (thinking). The term key developmental indicators encapsulates HighScope's approach to early education. The word key refers to the fact that these are the meaningful ideas children should learn and experience.

At the Preschool level, students participate in interdisciplinary activities that promote cultural awareness, sensitivity to individual differences, and respect for diversity. In grades K-4, students learn fundamental concepts about government, citizenship, geography, economics, and history.

New Jersey Student Learning Standards for Social Studies

Inference is a "foundational skill" — a prerequisite for higher-order thinking and 21st century skills (Marzano, 2010) Inference skills are used across the curriculum, including English language arts, science and social studies. Because inferring requires higher order thinking skills, it can be difficult for many students.
