Amazon.com: Customer reviews: Outliving Cancer

The primary treatment he has relied on since September 2017 is Optune, a cap that he said he wears up to 23 hours a day. Optune is a device used to treat glioblastoma that, “uses technology called ‘tumor treating fields’ to deliver electric fields to the brain, which can help stop the proliferation of cancer cells,” according to the Mayo Clinic. Although patients using Optune do not feel ...
