A few other things, FS2CREW Pushback Express and flight crew A320 work very well so if you don't mind using an Airbus Checklist they add to the experience. Finally I bought other products in the full knowledge they are work in progress. This one is no different and the developer didn't hide that. Looking forward to the next update.

Technique: Pilots often form a habit of leaving taxi lights turned off until the tower clears them to land. When the crew receives landing clearance, the captain will turn the taxi lights on. If things get busy, a taxi light switch that's off reminds the crew they need a landing clearance. 30 second exposure of a jet on final approach.
