Empathy: Gender effects in brain and behavior

Remember, it's a collaboration. You're not beating someone, you're working with them for the best possible solution to both your interests. Think of the Other Person. Empathy is fine, but really what this tactic does is address the give-and-take of any negotiation.

How to Negotiate in the Workplace: A Practical Guide

The empathy gap means we make incorrect predictions about our future behavior. It is related to the projection bias, which refers to our tendency to overestimate how much our future self will share the same tastes and preferences as our current self. Both biases mean that we make decisions only considering our narrow, short-term state, instead of considering the fact
