Printable Vision Chart

Eye charts can be configured in various ways. Generally, if you can read the big "E" at the top of the chart, but none of the letters lower than that, your vision is considered 20/200. 20/200 vision means that you can read a letter at 20 feet that people with "normal" vision could read at 200 feet. This means that your visual acuity is very poor.

Eye Tests, the Eye Chart and 20/20 Vision Explained

The limitations of the chart. Like every other thing, the printable eye chart has limitations. Following are some of the limitations of the chart: The chart can be used to measure visual acuity only; The chart does not measure your color perception, depth perception, peripheral vision, or the ability to apprehend contrast
