Abstract. In this chapter we examine

File Type PDF Risk And Choice In Maternity Care

midwives' discourses in relationship to risk and place of birth. We analyse the ways in which these discourses take place at the intersection of two discrete imperatives: to provide pregnant women with choice over where and how they give birth; and to protect mothers and babies from harm.

result of the current risk approach to maternity care (RCM, 2003). Symon (2006) suggests a woman needs to cooperate with a technocratic approach to maternity care, in order that she maximises her chances of avoiding disaster. He also describes a Risk-Choice paradox. Risk management has given society and
