Locate and select the Save command on the Quick Access Toolbar. If you're saving the file for the first time, the Save As pane will appear in Backstage view. You'll then need to choose where to save the file and give it a file name. To save the workbook to your computer, select Computer, then click Browse.

Excel 2016: Saving and Sharing Workbooks

I always advise users to not use the shared workbook feature to begin with. Sharing a workbook where multiple people open the same workbook in Excel on their desktop is a very unreliable feature. You are risking loss of the entire workbook due to corruption and edit conflicts may result in unexpected data to be saved.

Common issues of shared workbook
